

Cataract Lens Options

Package 1 STREET-LEGAL

Extended Depth of Focus (EDOF) lenses are designed to correct astigmatism for clear distance vision. However, **glasses will still be needed for reading.** Complimentary laser vision corrections are available for vision enhancements after surgery for perfect distance vision in both eyes.

Price: \$2500 + Copay
each eye

Package 2 CALIFORNIA BLEND

Light Adjustable Lenses (LAL) and Vivivity EDOF are designed to correct astigmatism and extend range of vision. With UV light treatments, or complimentary laser vision correction, we are able to adjust your vision to best match your lifestyle. **Lowest possibility of needing glasses after surgery!**

Price: \$5000 + Copay
each eye
